## PROJECT-1

The inspiration comes from what is happening in the world now, such as plagues, wars, famines, etc. This scene is related to the prophecy of the Four Horsemen of the Doomsday in the Bible. The hypothesis of the doomsday is more like a transformation of the old and new worlds. Human civilization will eventually how about it?

## PROJECT-2 TRAIN OF THOUGHT

At first, I only dared to draw some real things to practice.

# ■ Train of thought

The recent perception in life and learning, if too much pursuit of perfection, will lead to nothing completed in the end. The best works are irreplaceable at a special moment, rather than the pursuit of technical perfection. The best condition is to retain the inspiration at that time.

It can also be said that there is **NO ABSOLUTE PERFECTION, ONLY BETTER, SURPASS YOURSELF LAST TIME**

**THE PURSUIT OF PERFECTION IS A CURSE.**  
There are no absolutely perfect people and works in this world
